TRAIL Seminars
5145 Engleman Ct
Colorado Springs, CO 80906

Dear Patrick,

On behalf of the KIWANIS Club of Pueblo and all the participants in last months TRAIL Leadership Seminar please accept my thanks for taking the time out of your busy schedule to speak to our group. Your time and your message were much appreciated.

The PATH Leadership curriculum was very appropriate for the Key Club leaders that were in attendance. Even though this was a shortened version of the full seminar, the two modules that were presented were appropriate and complemented each other very well. I especially liked that we were able to mix the practical skills topic of "Understanding Group Process" with the moral topic of "Understanding Ethical Decision Making". A discussion of ethics is critical in any leadership training. So many today are afraid to talk to our young people about some things being inherently right or wrong. Thank you.

The seminar was presented in a format that was a mix of lecture and group breakouts. This helped keep the participants interest and at the same time encouraged lots of individual participation. By all accounts the seminar was a great success.

Sincerely,

Jim Morgan
President – KIWANIS Club of Pueblo
